Manage Child Support & Share Expenses

directly between parents

Manage, Track & Pay All Child Support

SupportPay helps parents manage child support & share expenses by providing an easy, automated, & transparent way to manage base & additional support, track expenses, make payments & share documents – directly with each other. We take care of the notifications, reminders, history & documents while providing a certified record so parents can spend less time managing finances & more time focused on what matters most, raising happy, healthy children.

starting at

\$14.99 per month

Families are 90% more likely to exchange child support using SupportPay

How it works:

Base support is scheduled. For additional expenses a parent enters an expense & attaches a receipt. SupportPay calculates each parents balance, shares the receipt, creates a certified record & notifies the other parent. The other parent sees the expense is for their child and can make or schedule a payment & store additional payment documents. With all child support & expenses in one place, parents & legal professionals save time & money, making SupportPay beneficial for everyone.

Why it works:

STANDARD SYSTEM & PROCESS

Standardized system & process that provides a single location for parents to manage child support & share other child-related expenses (childcare, education, medical, etc). Works with government systems or on its own. Parents can make & receive payments directly between their bank accounts, via PayPal or record manual cash, check or credit card payments.

TRANSPARENCY

Paying parents feel confident that the money is going to their children while receiving parents can rely on SupportPay to manage the communication. Both parents have a clear understanding of the true costs of raising a child and can put the focus back on the children, where child support belongs.

REDUCES CONFLICT

All information is stored and communicated through SupportPay. Everyone sees the same data and information. In case of disagreements, SupportPay has a two-step dispute process that keeps conflicts to a minimum but gives you everything you need in the event that a professional needs to get involved.

PRIVATE & SECURE

All information is safe and secure and exceeds the highest level of government security. Parents decide what information to share and what to keep private but all financial information is kept private.

EVERYTHING IN ONE PLACE

All information is in one place enabling quick & easy access for taxes or submitting court documents. Parents protect themselves by creating a certified record of expenses and payments. In case of a dispute or the need for a modification, all information is a button click away.

Built By Parents, For Parents

SupportPay is built by parents whose only focus is to help parents and children get the financial support they deserve
